“Infinitism distances, infinitism times, infinitesimal dimensions, infinitism spacetimes & infinitism quantities & combinations of quantities as distances, times, spacetimes in ∞ kinds of planets, galaxies, universes, multiverses, infiniteverses & special objects, objects, effects, subeffects, factors in the kinds of ∞ kinds of different/same/∞ kinds of everything being everywhere being in/on the natures/∞ kinds of ∞ gods & goddesses from infinitesimal smallest(/∞ kinds) to infinitesimal biggest(/∞ kinds) in nature natures.”

Abstract: This thesis discussed the lights of ∞ gods and goddesses in nature’s infinite life of ∞ kinds in different/same/∞ kinds of natures that are in “I, you and me” and understanding the importances of ∞ kinds of gods and goddesses purpose of the “I, you and me” in everything and everywhere from the infinitesimal smallest to biggest of infinite matters of “I, you and me” in ∞ kinds , combinations of ∞ kinds in nature’s life as the important reasons in infinite life to “how, why, where, what, ∞ kinds” are the ∞ kinds of gods and goddesses even when the life’s being played with the magestical creatures of ∞ kinds of gods and goddesses for the nature’s life to know the “Karmah” and “Dharma” for the “I, you and me” to take the life lessons from the “Songs of Gods and Goddesses” being there and here from ancient times and being translated from many as the meanings of ∞ gods and goddesses of love to withhold the togetherness in natures of nature’s life.

1. Introduction.

Come with me, (I, me, you) in “we”, gather around in the gatherings hear in the trains, buses, cars, vans, bull-carts, horse-carts, newspapers, magazines, smallest to biggest hoardings, posters, roads, houses, homes, farmhouses, bighouses, cycles, sidewalks, kingdoms, groups of birds, fishes, whales, sharks, heatwaves, snowfalls, rainbows, stars, rains, storms, waterfalls, cosmos, earths core, planets cores, suns, moons, deaths, births, romance, nights, noons, days, winters, summers, winds, rushing crowds, bridges of gods, bridges of goddesses, runways of empty grounds, grounds of mountains and hills grass, oceans waters, rivers, seas, burning fire, living with the low self esteem confidence, couples, snakes, toys, many of those experiencing the same & differents someone from different/different/same/ ∞ kinds from people coming with different in everything in from different/same/ ∞ kinds lifetimes, sorrows of girls, boys childs, man losing everything to women losing everything, kids in the pain, mother & fathers in the endless sufferings, students, lakhs of many losses, happiness of the empty crowds, in someone great in itself, womens, mens rushing towards the hospitals, grains of wheats, darkness of someone's love, in the deaths of births of cats, dogs, bears, frogs the dears, reptiles, anaconda, dinosaurs, millions, billions, trillions in the troubles to get how/had/has something for someone, rings circles, squares, rectangles, tears of the birds, animals, strangers, lovers of defeats & wins in the troubled games, crosswalks whisperings, falling sky on shadows, in the cries of angles & ghosts, in wondering the wounds of becoming the hosts of the issues/problems/troubles of many ∞ lifes/lives, lost seasons of circling deserts with the storms from nights/days, these were was/is/will the realities of the life's of ∞ natures & in nature as the many would ask how, why, where, when, what as of the ignorance was/is/will on the rise of the days of mostly known for that in those days the “troubling son of god” or “some say” “oh, he had become god now” as many were on the rise of troubling the many in their lifes for ∞ reasons of “songs of gods” as the one's with wisdom, love, respect would had/has/have understood the known facts of lifes in words without knowing or telling as the “God of love” has/have/had now come in a avatar of Jesus the chills of hills, tears of girls, boys, kids, moms, husbands, wives, fathers, sisters, grandfathers, grandmothers, heros, heroines, students, labours, workers, daughter, sons, older we(you, me, I), in the hates, angers, fears, anxiety, loves, meditating of many of the girls, boys,

kids, moms, husbands, wives, fathers, sisters, grandfathers, grandmothers, heros, heroines, the troubles/issues/problems in many were always the witness of the troubles/issues/problems in many as the times were going on when the “Jesus” was come/came in its ∞ kinds as the Krishna, Ali, Buddha, Ram, Vishnu, Shiva, Tara, Bharmah, Kali, Greeks Gods, Japanese/ Chinese/ Korean/Multi_cultural ∞ Gods and Goddesses in himself/herself/themselves/ourself after taking birth from the Mother “Merry” that “karmah” & “dharma” is/was/will be mislead & lead & understood by many in their lives as the many of those live in Jesus “the Shiva” was speaking in with the few of the “Yeahuddees” in them, some who come for Ali “The Jesus” as being said the “Ram “the Vishnu” & “the Jesus” of telling that many who don’t know the reality of life in coming future of “the Bharmah”, the Jesus would come telling that “jesus the tara” is/was/will not be goddesses & gods in the “I, me & you” and put one by one the screws in the “Jesus the Kali” from the toes of “me, I & you” up to the knees, to the hands, to the elbows, to the shoulders, in the lungs, putting the killing “kills” every single day from the day of my born to my deaths days & till those “you, I & me” should know that till the last “kill” & “Screw” was/is/will kept by hitting in the “Jesus the Ram”,are “the Ali, the Kali, the Shiva, the Brahma, the Muhammad, the Vishnu” of the times to “top of the head in center” “You, I & me” in “we” had/has/have to see the days, nights, noons in everyday everywhere in the chills of writing of flowing blood of me,I, You on the roads, in the grass, in the trains, in the rains, in the storms, in the winds, of the strings of music, rivers breaths, clouds shrinks, dears flinks, dust on faces with drinks, water of that times thinks, rains becomes storms & winds, oceans becomes cyclones with heavy winds, lighting becoming louder than any of birds, cats, animals heats to peoples and becomes seas of dolphins shooting stars were thought of prayers of many becomes reals of great deals, womens sells his kids to unknown that thinks would care and becomes tough on the hard days, nights, noons of hard labours without the money like the salivary of those many were hard for someone who were on the ignorance of those days, nights, noons, in their every minutes, seconds, hours, of the lifes as ignorance of ∞ gods and goddesses & “songs of gods” were was/is/will on the high rise in these times and these times, the crowds on the “both sides of cross” & “Jesus the Ali Ram Shiva” was being bullied in hatred of crowd of all sides as the Ali The Brahma & the Tara of Jesus were telling so to the few, few were becoming worries about the story becoming day by day, knight by night becoming real and firing chills to many as the “Jesus the Kali” was/is/will about to tell the story of the rise after the death and becoming appearing to few only in them in life & as the chords were becoming more & more haunting in hatred, sorrows, abuse towards the “jesus the Muhammad” own “moh-maya” of the self that these were all unknown to the reality of life, and being imbalance in themselves & even after knowing the facts of ignorance those many were not was/is/will not stops on the hatred till the day of last “screw” being put to “kill” the person avatar of the “Jesus the Kaal Bharava” as because of the “moh-maya” of the “Jesus the Tara” has/have/had created it for them in natures nature for the ∞ lifes, and in those walks of cross on the slippery cross on the muds & waters of the roads of many gets haunted in the crowds of cruelty of fears, troubled, “the screws” in the body of “the jesus the Bharmah” as some in many of the crowds laughed about the facts of the chills of voices in crowd of hatred sorrows towards “the jesus as the Ram the Ali” as the crowd said the “fake gods & goddesses”, “dumbo”, “killers” & many other stuff as the ignorance of the “karma” learning from dharma” & from “dharma the learning of karma” was on the defeats of rise of that time, “learning dharma from karmah” in the life of the crowds was/is/will be on defeats of rise/falls because of evils and angles of ∞ gods and goddesses, as these were hard to understand the “karmah” from “dharma” in there lifes & their all lifes & lifetimes thus these all was/is/will go through of the all the those feelings and emotions in all nights, noons of the divine of the self get rise in everywhere everyday till the self get rise in those as these are “I, me and you” in our lifes everyday everywhere till these days when “jesus the Christ” have/had/has telling these few words of life reasons to live life as like the “Mother Tara, the Mother Merry” told in the “songs of gods & goddesses” of the

realising the values of life towards the “karmah” & the “learning “the Karmah/ the Dharma” from “the Dharma/ the karmah” and ends of the times rise to the “Jesus the one’s footholds” towards the “Shiva,as the Jesus & as the Bharmah” & being “the Krishnah” of ∞ gods & goddesses being the carrier of the “Rath” of life (through the path) for many in ignorance of life as the “the Vishnu” becomes “the Ali” & standing behind in “Rath” & “Kali the Tara” being driving the horses “the ashav” in the “youth” and become “yodha for self and many” of life where the importance of the “karmah” & “dharma” for the “Muhammad” of the standing “Rath” & “the Shiva” being the horserider of the “Rath” for one’s life (beginnings of journey of lifetime till the end of lifecycle), the feeling and emotions being the “Rath & Path” to know the values of importance of life & becoming apart & “learning the detachments” of one’s self towards the everything & everywhere & rise itself to consciousness of life & not towards the consciousness of the angles & ghosts in the life, as the one’s who becomes the conscious towards the life & know what the conscious towards the life & know what the reality of life & its importance, one’s who was/is/will be always there towards the path of ∞ gods & goddesses & was/is/will be bring in the divine gods and goddesses in these this life of ∞ natures & ∞ nature. Whereas in those crowds of slippery cross of Jesus of many times “the screws” are put in the “Jesus the Tara” the ∞ lifes, after the days, nights, noons of the final days of ∞ gods and goddesses in “Jesus as the Muhammad & the Mahadevi” as in avatar of person becoming towards “Deaths days” in was becoming hard for many to digest the facts of life and understand the “karmah” and the “dharma” whereas many of the boys, girls , kids, grandfathers, grandmothers, womens, mens, children, lonely peoples after hearing of those days & in those cross before “the holy day” of “Good Friday” the reborn of “Jesus the Tara” & appearances in ∞ lifes of natures of that times was/is/will be told everything everywhere & many who were known to be towards the reality of lifes and nothing also in those crowds said & told to many in the “moh-maya” of the self in person “Jesus the Kali”, that “this” was/is/will the ∞ gods & ∞ goddesses & this is/was/will the reality of life, many gone under the denies of the reality & walks on the path of ignorance as usual & after days & nights and noons for has/have/had hard of becoming for many even after being told by few of “the Jesus, the Brahma” that he/she/them appeared to few even after death of the putted “screw” in his body as avatar as person but “you, I, me” in everyday everywhere had/has/have to show the reality of life of ∞ gods & goddesses & acknowledge the many with the “learning of the dharma” from “karma” & vice-versa. & then knowing “what the gods” & if all the becomes clear to someone then walking on the path of “love, truth, for divines and everything in nature of ∞ gods & goddesses” & going away from the path of ignorance of ∞ lifes of natures nature’s and becoming the divines in the self of the life knowing the inner and outer self perspective of life and becoming the control of self towards the ∞ lifes nature’s nature & doing the every & each “karmah” & “dharma” with “love, care, respect” towards ∞ lifes in the ∞ goddesses & ∞ gods nature natures.

2. Results of Infinitism & eternalism from my research for events.

From Eternalism Research

Eternalism Time (T^*) & event propagation wave eq:-

$T_{\text{bound}} > T_{\text{past}(1)} + T_{\text{present}(2)} + T_{\text{future}(1)} + \dots$ so on (if R.H.S terms keeps on increasing)
 $T_{\text{bound}} < T_{\text{past}(2)} - T_{\text{present}(1)} - T_{\text{future}(1)} \dots$ so on (if R.H.S terms keeps on decreasing)
 $T_{\text{bound}} = T_{\text{past}(3)} + T_{\text{present}(1)} - T_{\text{future}(2)} \dots$ so on (T_{bound} will be resultant of all the terms)
 $T_{\text{abundance}} = ((\alpha(T_{\text{past}(1)(0\text{th})}) + \beta(T_{\text{past}(1)}(\text{fixed})) + \gamma(T_{\text{past}(1)(\text{variable})) + \dots (\alpha(T_{\text{past}(n)(0\text{th})}) + \beta(T_{\text{past}(n)}(\text{fixed})) + \gamma(T_{\text{past}(n)(\text{variable})) + ((\alpha(T_{\text{present}(1)(0\text{th})}) + \beta(T_{\text{present}(1)}(\text{fixed})) + \gamma(T_{\text{present}(1)(\text{variable})) + \dots$

$$(\alpha(T_{(present)(n)(0th)}) + \beta(T_{(present)(n)(fixed)}) + \gamma(T_{(present)(n)(variable)})) + ((\alpha(T_{(future)(1)(0th)}) + \beta(T_{(future)(1)(fixed)}) + \gamma(T_{(future)(1)(variable)})) + \dots + (\alpha(T_{(future)(n)(0th)}) + \beta(T_{(future)(n)(fixed)}) + \gamma(T_{(future)(n)(variable)})))$$

& τ^\dagger , y^\dagger and ψ^\dagger following relations:-

$$\psi^\dagger = \tau^\dagger + y^\dagger$$

$$\tau^\dagger = (\vec{h}^\dagger / (\vec{P}_e^\dagger \cdot \vec{T}^\dagger \cdot (\vec{\nabla} \xi))) + ((4\{(\kappa^\dagger) \cdot (\eta^\dagger)\})/c) - (\sigma^\dagger) - (R_e^\dagger) |_{L_1 \dots L_n} |^{S_1 \dots S_n}$$

$$y^\dagger = (\vec{h}^\dagger / (\vec{P}_e^\dagger \cdot \vec{T}^\dagger \cdot (\vec{\nabla} \xi))) + ((4\{(\kappa^\dagger) \cdot (\eta^\dagger)\})/c) - (\sigma^\dagger) - (R_e^\dagger) |_{L_1 \dots L_n} |^{S_1 \dots S_n}$$

In above equations L_1 to L_n represents points of events happening and S_1 to S_n represents the event-spacetime frame and the generalized expression of eternalism Time (\mathbf{T}^\dagger) for event propagation wave (\vec{h}) at a particular point in event-spacetime frame for n number of events to be occurring on that point:-

$$\mathbf{T}^\dagger = \{[(T_{past(1)(0th)} + T_{past(2)(0th)} + T_{past(3)(0th)} + \dots + T_{past(n)(0th)}) + (T_{past(1)(variable)} + T_{past(2)(variable)} + T_{past(3)(variable)} + \dots + T_{past(n)(variable)}) + (T_{past(1)(fixed)} + T_{past(2)(fixed)} + T_{past(3)(fixed)} + \dots + T_{past(n)(fixed)})] + [(T_{present(1)(0th)} + T_{present(2)(0th)} + T_{present(3)(0th)} + \dots + T_{present(n)(0th)}) + (T_{present(1)(variable)} + T_{present(2)(variable)} + T_{present(3)(variable)} + \dots + T_{present(n)(variable)}) + (T_{present(1)(fixed)} + T_{present(2)(fixed)} + T_{present(3)(fixed)} + \dots + T_{present(n)(fixed)})] + [(T_{future(1)(0th)} + T_{future(2)(0th)} + T_{future(3)(0th)} + \dots + T_{future(n)(0th)}) + (T_{future(1)(variable)} + T_{future(2)(variable)} + T_{future(3)(variable)} + \dots + T_{future(n)(variable)}) + (T_{future(1)(fixed)} + T_{future(2)(fixed)} + T_{future(3)(fixed)} + \dots + T_{future(n)(fixed)})]\}$$

Equation of event propagation was/is/will be given as for eternalism as:-

$$\vec{h} = \{(\xi_x \partial/\partial x + \xi_y \partial/\partial y + \xi_z \partial/\partial z) \cdot \{[(\tau_1 + \tau_2 + \tau_3 + \tau_4 + \tau_5 + \tau_6 + \dots + \tau_n) + (y'_1 + y'_2 + y'_3 + y'_4 + y'_5 + y'_6 + \dots + y'_n)] + ((R_{e(1)} + R_{e(2)} + R_{e(3)} + R_{e(4)} + R_{e(5)} + \dots + R_{e(n)}) + (R_{d(1)} + R_{d(2)} + R_{d(3)} + R_{d(4)} + R_{d(5)} + \dots + R_{d(n)})) - (4[(\kappa_1 + \kappa_2 + \kappa_3 + \kappa_4 + \kappa_5 + \dots + \kappa_n) + (z_1 + z_2 + z_3 + z_4 + z_5 + \dots + z_n)] \cdot [(\eta_1 + \eta_2 + \eta_3 + \eta_4 + \eta_5 + \dots + \eta_n) + (p_1 + p_2 + p_3 + p_4 + p_5 + \dots + p_n)]\}/c) + ((\sigma_1 + \sigma_2 + \sigma_3 + \sigma_4 + \sigma_5 + \sigma_6 + \dots + \sigma_n) + (\epsilon_1 + \epsilon_2 + \epsilon_3 + \epsilon_4 + \epsilon_5 + \epsilon_6 + \dots + \epsilon_n)) \cdot ((P_{e(1)} + P_{e(2)} + P_{e(3)} + P_{e(4)} + \dots + P_{e(n)}) + (P_{d(1)} + P_{d(2)} + P_{d(3)} + P_{d(4)} + \dots + P_{d(n)})) \cdot \{[(T_{past(1)(0th)} + T_{past(2)(0th)} + T_{past(3)(0th)} + \dots + T_{past(n)(0th)}) + (T_{past(1)(variable)} + T_{past(2)(variable)} + T_{past(3)(variable)} + \dots + T_{past(n)(variable)}) + (T_{past(1)(fixed)} + T_{past(2)(fixed)} + T_{past(3)(fixed)} + \dots + T_{past(n)(fixed)})] + [(T_{present(1)(0th)} + T_{present(2)(0th)} + T_{present(3)(0th)} + \dots + T_{present(n)(0th)}) + (T_{present(1)(variable)} + T_{present(2)(variable)} + T_{present(3)(variable)} + \dots + T_{present(n)(variable)}) + (T_{present(1)(fixed)} + T_{present(2)(fixed)} + T_{present(3)(fixed)} + \dots + T_{present(n)(fixed)})] + [(T_{future(1)(0th)} + T_{future(2)(0th)} + T_{future(3)(0th)} + \dots + T_{future(n)(0th)}) + (T_{future(1)(variable)} + T_{future(2)(variable)} + T_{future(3)(variable)} + \dots + T_{future(n)(variable)}) + (T_{future(1)(fixed)} + T_{future(2)(fixed)} + T_{future(3)(fixed)} + \dots + T_{future(n)(fixed)})]\}\}$$

This above equation can be re-written in simplified form as follows:-

$$\mathbf{h} = \{(\xi_x \partial/\partial \mathbf{x} + \xi_y \partial/\partial \mathbf{y} + \xi_z \partial/\partial \mathbf{z}).\{[(\tau^\dagger + y^\dagger) + (\mathbf{R}_c^\dagger + \mathbf{R}_d^\dagger)] - ((4\{(\kappa^\dagger + \mathbf{z}^\dagger).(\eta^\dagger + \mathbf{p}^\dagger)\})/c) + (\sigma^\dagger + \epsilon^\dagger)\} \cdot (\mathbf{P}_c^\dagger + \mathbf{P}_d^\dagger) \cdot (\mathbf{T}^\dagger)\}$$

Now the generalized equation of event propagation wave only with effective variables:-

$$\begin{aligned} \mathbf{H} = & \{ (\xi_x \partial/\partial x + \xi_y \partial/\partial y + \xi_z \partial/\partial z). \{ [((\tau_1 + \tau_2 + \tau_3 + \tau_4 + \tau_5 + \tau_6 + \dots + \tau_n) + (y_1 + y_2 + y_3 + y_4 + y_5 + y_6 + \dots + y_n)) + (\mathbf{R}_{c(1)} + \mathbf{R}_{c(2)} + \mathbf{R}_{c(3)} \\ & + \mathbf{R}_{c(4)} + \mathbf{R}_{c(5)} + \dots + \mathbf{R}_{c(n)})] - (4\{(\kappa_1 + \kappa_2 + \kappa_3 + \kappa_4 + \kappa_5 + \dots + \kappa_n).(\eta_1 + \eta_2 + \eta_3 + \eta_4 + \eta_5 + \dots + \eta_n)\}/c) + ((\sigma_1 + \sigma_2 + \sigma_3 + \sigma_4 + \sigma_5 + \sigma_6 + \dots + \sigma_n)\} \cdot (\mathbf{P}_{c(1)} + \mathbf{P}_{c(2)} + \mathbf{P}_{c(3)} + \mathbf{P}_{c(4)} + \dots + \mathbf{P}_{c(n)}) \cdot \\ & \{ [(T_{\text{past}(1)(0\text{th})} + T_{\text{past}(2)(0\text{th})} + T_{\text{past}(3)(0\text{th})} + \dots + T_{\text{past}(n)(0\text{th})} + (T_{\text{past}(1)(\text{variable})} + T_{\text{past}(2)(\text{variable})} + T_{\text{past}(3)(\text{variable})} + \dots + T_{\text{past}(n)(\text{variable})} + (T_{\text{past}(1)(\text{fixed})} + T_{\text{past}(2)(\text{fixed})} + T_{\text{past}(3)(\text{fixed})} + \dots + T_{\text{past}(n)(\text{fixed})})] + [(T_{\text{present}(1)(0\text{th})} + T_{\text{present}(2)(0\text{th})} + T_{\text{present}(3)(0\text{th})} + \dots + T_{\text{present}(n)(0\text{th})} + (T_{\text{present}(1)(\text{variable})} + T_{\text{present}(2)(\text{variable})} + T_{\text{present}(3)(\text{variable})} + \dots + T_{\text{present}(n)(\text{variable})} + (T_{\text{present}(1)(\text{fixed})} + T_{\text{present}(2)(\text{fixed})} + T_{\text{present}(3)(\text{fixed})} + \dots + T_{\text{present}(n)(\text{fixed})})] + [(T_{\text{future}(1)(0\text{th})} + T_{\text{future}(2)(0\text{th})} + T_{\text{future}(3)(0\text{th})} + \dots + T_{\text{future}(n)(0\text{th})} + (T_{\text{future}(1)(\text{variable})} + T_{\text{future}(2)(\text{variable})} + T_{\text{future}(3)(\text{variable})} + \dots + T_{\text{future}(n)(\text{variable})} + (T_{\text{future}(1)(\text{fixed})} + T_{\text{future}(2)(\text{fixed})} + T_{\text{future}(3)(\text{fixed})} + \dots + T_{\text{future}(n)(\text{fixed})})] \} \} \end{aligned}$$

This above equation can be re-written in simplified form as follows:-

$$\mathbf{h} = \{(\xi_x \partial/\partial \mathbf{x} + \xi_y \partial/\partial \mathbf{y} + \xi_z \partial/\partial \mathbf{z}).\{[(\tau^\dagger + y^\dagger) + (\mathbf{R}_c^\dagger)] - ((4\{(\kappa^\dagger).(\eta^\dagger)\})/c) + (\sigma^\dagger)\} \cdot (\mathbf{P}_c^\dagger) \cdot (\mathbf{T}^\dagger)\}$$

Equation for travelling event propagation wave for any event was/is/will be given as

$$\mathbf{h}^\dagger = \{ \vec{\nabla} \cdot \xi (\Psi^\dagger + \mathbf{R}^\dagger) + (G_{cd} F^{cd}) + \Phi_G^\dagger \} \cdot \vec{P}^\dagger \cdot \mathbf{T}^\dagger \} + \mathbf{h}^*$$

where $\mathbf{h}^* = \mathbf{h}_2 + \mathbf{h}_3 + \dots + \mathbf{h}_n$

and for travelling event propagation waves, equations for “ τ^\dagger ” and “ y^\dagger ” are given as :-

$$\tau^\dagger = (\mathbf{h}^\dagger / (\vec{P}_c^\dagger \cdot \mathbf{T}^\dagger \cdot (\vec{\nabla} \xi))) + ((4\{(\kappa^\dagger).(\eta^\dagger)\})/c) - (\sigma^\dagger) - (\mathbf{R}_c^\dagger) |_{L_1 \dots L_n} |^{s_1 \dots S_n}$$

$$y^\dagger = (\mathbf{h}^\dagger / (\vec{P}_c^\dagger \cdot \mathbf{T}^\dagger \cdot (\vec{\nabla} \xi))) + ((4\{(\kappa^\dagger).(\eta^\dagger)\})/c) - (\sigma^\dagger) - (\mathbf{R}_c^\dagger) |_{L_1 \dots L_n} |^{s_1 \dots S_n}$$

Here the left-why(y) propagation waves are those who getting effects from different kinds of effects, subeffects, factors of ∞ kinds and get turned over to different directions in cosmos and exotic lifes as the results from infinitism says it all.

From “infinitism” research

The eqⁿ of relational functions for effects, subeffects and factors can be evaluated as follows:-

Effects(/subeffects/factors) natures[†] \propto characteristics/natures of ∞ kinds,
Effects(/Subeffects/Factors) natures[†] $\propto 1/(\text{natures of } \infty \text{ kinds})$, Effects(/Subeffects/Factors) natures[†] $\propto (\text{natures of } \infty \text{ kinds})/(\text{natures of } \infty \text{ kinds}), \dots \infty$ such mathematical combinations

These combination of natures of effects(/subeffects/factors) nature variations tends to “∞” as their are the “∞” combinations of natures based on “∞” mathematical operators that varies from “∞” kinds of effects & “∞” kinds of subeffects in nature of natures that can be in existence of “∞” planetic nature, in cosmic as for galactics, universes, multiverses, infiniteverses, various ∞ kinds of special objects in special objects/special objects for the “strength & love” in the galactics, universes, multiverses, infiniteverses. And in the place of “∞” “∞” kinds of conditional operators can be used for relational functions. Thus, the eqⁿ of relational function can be evaluated as follows, here “effects nature” is represented as “Efnr” for simplicity:-

$$N^{\dagger} \propto Efnr^{\dagger} \propto \left\{ \begin{array}{l} \infty \text{ combination of} \\ \text{natures of “effects} \\ \text{nature” based on the} \\ \text{facts of } \infty \text{ kinds of} \\ \text{effects \& subeffects} \end{array} \right\} \left\{ \begin{array}{l} \text{matters as “}\infty\text{”, universes as “}\infty\text{”, “galactics as} \\ \text{“}\infty\text{”, planets as “}\infty\text{”, multiverses as “}\infty\text{”,} \\ \text{infiniteverse as “}\infty\text{”, galactics special objects} \\ \text{as “}\infty\text{”, planets special objects as “}\infty\text{”,} \\ \text{multiverses special objects as “}\infty\text{”,} \\ \text{infiniteverse special objects as “}\infty\text{”, special} \\ \text{objects in special objects as “}\infty\text{”.} \end{array} \right\}$$

Subeffects natures[†] ∝ characteristics/natures of ∞ kinds, Subeffects natures[†] ∝ 1/(natures of ∞ kinds), Subeffects natures[†] ∝ (natures of ∞ kinds)/(natures of ∞ kinds),..... ∞ such mathematical combinations

Thus, the eqⁿ of relational function can be evaluated as follows, here “subeffects natures” is represented as “Sefnr” for simplicity:-

$$N^{\dagger} \propto Sefnr^{\dagger} \propto \left\{ \begin{array}{l} \infty \text{ combination of} \\ \text{natures of “subeffects} \\ \text{nature” based on the} \\ \text{facts of } \infty \text{ kinds of} \\ \text{effects \& subeffects} \end{array} \right\} \left\{ \begin{array}{l} \text{matters as “}\infty\text{”, universes as “}\infty\text{”, “galactics as} \\ \text{“}\infty\text{”, planets as “}\infty\text{”, multiverses as “}\infty\text{”,} \\ \text{infiniteverse as “}\infty\text{”, galactics special objects} \\ \text{as “}\infty\text{”, planets special objects as “}\infty\text{”,} \\ \text{multiverses special objects as “}\infty\text{”,} \\ \text{infiniteverse special objects as “}\infty\text{”, special} \\ \text{objects in special objects as “}\infty\text{”.} \end{array} \right\}$$

∞ Intrinsic Subeffects of subeffects natures[†] ∝ characteristics/natures of ∞ kinds, ∞ Intrinsic Subeffects of subeffects natures[†] ∝ 1/(natures of ∞ kinds), ∞ Intrinsic Subeffects of subeffects natures[†] ∝ (natures of ∞ kinds)/(natures of ∞ kinds),..... ∞ such mathematical combinations

Thus, the eqⁿ of relational function can be evaluated as follows, here “Infinite Intrinsic subeffects of subeffects natures” is represented as “InSnr” for simplicity:-

Following is the complex and simplified relational function of event propagation wave in ∞ of its kinds different/same for the effects, subeffects... so on till infinity, special objects, objects in nature because of everything in existence in nature having its influences in nature’s life and in the natures of lives in nature.

$$\lambda^{\dagger} \propto \mathbf{Y}^{\dagger(\infty)\infty} \left\{ \begin{array}{l} \infty \text{ combination of} \\ \text{natures of } \infty \text{ kinds} \\ \text{of quantities/} \\ \text{quantity based on} \\ \text{the facts of } \infty \\ \text{kinds of effects \& } \\ \text{subeffects.} \end{array} \right\} \left\{ \begin{array}{l} \text{matters as “}\infty\text{”, universes as “}\infty\text{”, “galactics as} \\ \text{“}\infty\text{”, planets as “}\infty\text{”, multiverses as “}\infty\text{”,} \\ \text{infiniteverse as “}\infty\text{”, galactics special objects as} \\ \text{“}\infty\text{”, planets special objects as “}\infty\text{”, multiverses} \\ \text{special objects as “}\infty\text{”, infiniteverse special} \\ \text{objects as “}\infty\text{”, special objects in special objects} \\ \text{as “}\infty\text{”.} \end{array} \right\}$$

Following are the resultant simplified equation for the events that occurs in ∞ kinds for the “ \mathbf{h}^{\dagger} ” as the event propagation ∞ kinds in nature for just ∞ effects, subeffects, factors for special objects, objects in nature life through event propagation having ∞ kinds of events occurring/occurred/occurs in itself for the ∞ kinds of times for pasts/presents/futures in spacetimes (/ ∞ kinds of quantities-quantities as spacetimes) in different/same worlds of planets, galaxies, universes, multiverses, infiniteverses(∞ kinds of all such worlds) during the ∞ kinds of lifecycles and lifetimes presence in nature.

$$\mathbf{h}^{\dagger} = [\{(\mathbf{N}^{\dagger})(\Psi^{\dagger} + \mathbf{R}^{\dagger}) + (\mathbf{H}^{\dagger}) + (\mathbf{J}^{\dagger})\} \{(\mathbf{K}^{\dagger} \mathbf{J}^{\dagger})(\mathbf{O}^{\dagger} \mathbf{H}^{\dagger}) (\mathbf{T}^{\dagger}) (\mathbf{S}^{\dagger})\}]$$

Following are the resultant simplified universal equation for the events that occurs in ∞ kinds for the “ \mathbf{h}^{\dagger} ” as the event propagation ∞ kinds in nature for mix of ∞ effects, subeffects, factors for special objects, objects in nature life through universal event propagation having ∞ kinds of events occurring/occurred/occurs in itself for the ∞ kinds of times for pasts/presents/futures in spacetimes (/ ∞ kinds of quantities-quantities as spacetimes) in different/same worlds of planets, galaxies, universes, multiverses, infiniteverses(∞ kinds of all such worlds) during the ∞ kinds of lifecycles and lifetimes presence in nature.

$$\mathbf{h}_{\mathbf{u}} = [\{(\mathbf{N}_{\mathbf{u}})(\Psi_{\mathbf{u}} + \mathbf{R}_{\mathbf{u}}) + (\mathbf{H}_{\mathbf{u}}) + (\mathbf{J}_{\mathbf{u}})\} \{(\mathbf{K}_{\mathbf{u}} \mathbf{J}_{\mathbf{u}})(\mathbf{O}_{\mathbf{u}} \mathbf{H}_{\mathbf{u}}) (\mathbf{T}_{\mathbf{u}}) (\mathbf{S}_{\mathbf{u}})\}]$$

As the events occurrences begins in events spacetimes(/quantities-quantities of ∞ kinds) is different/same ∞ kinds of fashions/styles with event propagations of being going through the ∞ kinds of mathematical transformations and being in the influences of ∞ kinds of creations/creatures the event propagation function keeps on growing in ∞ kinds of its own kinds after mathematical transformations in ∞ kinds of times during the ∞ kinds of lifecycles and lifetimes presence in nature in the different/same worlds of planets, galaxies, universes, multiverses, infiniteverses(∞ kinds of all such worlds) and the events becoming the reasons to infinite other events in ∞ kinds of infinitism times of nature that becoming the reasons to events in nature’s life.

$$\mathbf{h}_{\mathbf{u}}^{\dagger} = \mathbf{h}_{\mathbf{u}1}^{\dagger} + \mathbf{h}_{\mathbf{u}2}^{\dagger} + \mathbf{h}_{\mathbf{u}3}^{\dagger} + \mathbf{h}_{\mathbf{u}4}^{\dagger} + \dots \dots \dots \mathbf{h}_{\mathbf{u}x}^{\dagger} + \dots \dots \dots \infty$$

As the natures process of concurrences of continuos of infinite kinds of events continues in natures life, thus the equations can equated as follows for further events with event propagation infinite kinds.

$$\mathbf{h}_{\mathbf{u}n}^* = \mathbf{h}_{\mathbf{u}1}^* + \mathbf{h}_{\mathbf{u}2}^* \dots \dots \dots \mathbf{h}_{\mathbf{u}x}^* + \mathbf{h}_{\mathbf{u}y}^* + \mathbf{h}_{\mathbf{u}z}^* + \dots \dots + \mathbf{h}_{\mathbf{u}*(\infty)}^{*(\infty)}$$

4. Infinite Matters.

In life of natures gods and goddesses, the life more than “ ∞ ” is/was/will be in always of its existence as the presence of the ∞ gods & goddesses in ∞ nature nature’s can’t be underestimated as the days/nights/noons of “ends of wars” in the “dharma” “youth” approaches the “Shakti, the Ali” in shiva of the “Dhwarka” as the “Krishna” in the “Tara Ma” of the Ram tells the “Mahadevi” of the homes in the way of “chakrview of youth” to the “Ganeshna” on the “rath” standing behind on “rath” that life journeys, life-styles and lifecycles begins & ends and as the “purpose” of the souls being bringing the majority of understanding in the crowds of the well-being and as the “Ganeshna as the Al-Lat” tells the “Valentino” that how could “I, you & me” in “we” could accept the everything is/was/will be in the “I, you & me” as even if everyday everything is/was/will not according to the “I, you & me” in “we”, then the “Mahadevi as Mohammed” to the “tara, the kali” tells that even if those all what’s you see in nature is/was/will not according to “you, me & I” in “we”, but this/that/what/when/where/ ∞ kinds of/it/to/for/by/ ∞ kinds of “you, me & I” exists in kind of ∞ kinds of ∞ matters to the all beings that being created and even destroyed in this life-journeys, life-styles & for lifecycles are the intrinsic & amazing parts of the “I, you & me” and this are being because/become/reasons to the causes of ∞ matters of ∞ subeffects, ∞ effects and ∞ factors of different/same/ ∞ kinds as the Mahadevi as Shakti & Tara Ma and for the Ram in “I, you & me” to understand the fact of ∞ lifes that ∞ gods and ∞ goddesses are the purposely the in/way of ∞ lifes of

5. Infinite Life Formulation.

In this formulation of infinite life, it says that existence of ∞ kinds of planets, ∞ galaxies, ∞ universes, ∞ multiverses, ∞ infiniteverses that are based on the ∞ kinds of the combination relations on mathematical operations & its other kinds/types of the opposites, differenters, same ∞ significant others being the conditional operators as like “ \propto ” (proportionality) that states that the ∞ worlds of ∞ kinds exists in nature’s ∞ gods and goddesses that exists because of existence of consciousness of ∞ kinds of effects, ∞ subeffects, ∞ factors, ∞ gods and goddesses, ∞ magestical creatures, ∞ natures, ∞ matters, ∞ particles of nature, ∞ kinds of special objects & ∞ objects in nature, special objects in special objects, special object in special objects in nature, natures of special objects & objects and as this brings the understanding of those worlds in the nature’s ∞ gods and goddesses.

$$\left\{ \begin{array}{l} \infty \text{ planets, } \infty \text{ galaxies, } \infty \text{ universes,} \\ \infty \text{ multiverses, } \infty \text{ infiniteverses,} \\ \infty \text{ special objects, } \infty \text{ objects,} \\ \infty \text{ effects, } \infty \text{ subeffects, } \infty \text{ factors} \end{array} \right\} \propto \left\{ \begin{array}{l} \infty \text{ planets, } \infty \text{ galaxies, } \infty \text{ universes,} \\ \infty \text{ multiverses, } \infty \text{ infiniteverses,} \\ \infty \text{ special objects, } \infty \text{ objects, } \infty \text{ effects, } \infty \\ \text{subeffects, } \infty \text{ factors } \infty \text{ natures, } \infty \text{ matters, } \infty \\ \text{particles of nature, } \infty \text{ events, } \infty \text{ gods, } \infty \\ \text{goddesses, } \infty \text{ magestic creatures} \end{array} \right\}$$

As in this formulations tells about the worlds and natures of ∞ kinds of universes of nature's life where some has planets with various of special objects in them, like so and so for the universes, galaxies, multiverses and infiniteverses.

6. Infinitism Time

Time was/will/is physical/(∞ kinds) Quantity/(∞ kinds) that will/is/was decided/(∞ kinds) by/from/for/(∞ kinds) all the " ∞ " kinds other quantities combinations of ∞ kinds in planets, universe's, galaxies, multiverses, infiniteverses, planets- ∞ , universes- ∞ , galaxies- ∞ , infiniteverses- ∞ (that running from billion (kharbow) years & has/had/having infinite life & continue to be running till billion (kharbow) years (/ ∞ kinds) with endless life). In infinitism, the time infinitism was/is/will be decided(decided/(∞ kinds)) by/from/for/(∞ kinds) the "nature/natures & effects, subeffects, factors & special objects & objects of" ∞ kinds.

for/from/by/to/(∞ kinds) the above “heavens” of ∞ kinds on ∞ kinds in planets, universe's, galaxies, multiverses, infiniteverses, planets- ∞ , universes- ∞ , galaxies- ∞ , infiniteverses- ∞ “Special Objects/Objects” (infinitism Special Objects/Objects) here/there/(∞ kinds) as the “quantities” for/like the “work” like “quantities” been taking how much strength for “quantities” like time. From above statement, we(you & me & I) can say that:-

Quantities \propto Quantities [\propto Quantities] (\propto combinations of conditional mathematics like operators(\propto effects, \propto subeffects, \propto factors, \propto others kinds)) [\propto Quantities]

Expanding above conditional statement for infinitism Special Objects/Objects:-

This can be derived from above formulation:-

$$| \leftarrow \text{These are in } \infty \text{ kinds} \rightarrow | \leftarrow \text{These are in } \infty \text{ kinds} \rightarrow | \leftarrow \text{These are in } \infty \text{ kinds} \rightarrow |$$
$$\text{Quantities}_{|\text{Special Objects/Objects}(\infty)} = \{\text{Quantities}_{\infty} + \text{Quantities}_{\infty} + \text{Effects}_{\infty} + \text{Subeffects}_{\infty} + \text{Special Objects}_{\infty} + \text{Objects}_{\infty} + \text{Special objects in special objects}_{\infty} + \text{factors}_{\infty} + \text{planets}_{\infty} + \text{galaxies}_{\infty} + \text{universes}_{\infty} + \text{multiverses}_{\infty} + \text{infiniteverses}_{\infty} + [\infty\text{-combinations of all from Quantities}_{\infty} \text{ to infiniteverses}_{\infty}]\}$$

Thus following can be concluded from above eqⁿ:-

[∞ combinations of ∞-quantities as conditional operators in mathematical kinds) & or Quantities-∞ +∞+.....(infiniteverses[∞])_∞}Special Objects/Objects
 ..
 +infiniteverses_∞]

Thus following can be concluded from above eqⁿ:-

$$\left[\begin{array}{l} \infty \text{ kinds of combinations \& } \\ \text{conditions/} \\ \text{unconditional/} \infty \text{ kinds of} \\ \text{conditional/} \\ \text{opposites of conditional \& } \\ \text{events} \end{array} \right] \quad \left\{ \begin{array}{l} \text{same/different of } \infty \\ \text{kinds sets as} \end{array} \right\} \quad \left\{ \begin{array}{l} \infty \text{ kinds of sets} \\ \text{relational as these} \\ \leftarrow \} \dots \text{ so on} \end{array} \right.$$

And as calculating infinitism kinds of Special Objects/Objects for the and events it can be as:-

$$\begin{array}{l} \text{Special Objects/ Objects} \\ = \text{Quantities} + \text{Quantities} \end{array} \quad \Leftrightarrow \quad \text{Quantities} = \text{Quantities} + \text{Quantities}$$

$$\text{Quantities} = \text{Quantities} \times \text{Special Objects/ Objects} \quad \Leftrightarrow \quad \text{Quantities} = \text{Quantities} / \text{Quantities}$$

Thus,

Quantities \propto Quantities/Quantities

Therefore,

$$[(\text{Quantities}(/ \infty \text{ Quantities}) \propto \text{Quantities}]_{\text{also}}$$

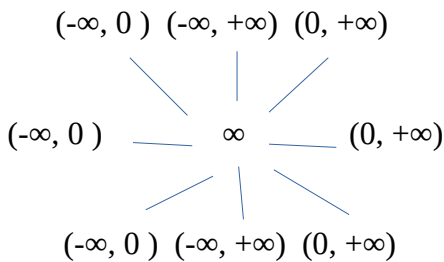

$$\left\{ \begin{array}{l} \{[\text{Quantities}, \infty \\ \text{combinations of effects,} \\ \text{subeffects, factors, } \infty \\ \text{special} \\ \text{objects,tends to} \\ \infty]\} \end{array} \quad \begin{array}{l} (\infty \text{ combinations}(/ \infty \\ \text{kinds of opposites \& } \\ \text{kinds of conditional} \\ \text{\& unconditional like} \\ \text{love \& } \infty \text{ kinds}) \end{array} \right\} \rightarrow \{ \text{Set 1} \}$$

Thus following can be concluded from above eqⁿ:-

$$\begin{array}{ccc}
 \left[\infty \text{ kinds of combinations \&} & \left\{ \text{same/different of } \infty & \left\{ \infty \text{ kinds of sets} \right. \right. \\
 \text{conditions/} & \text{kinds sets as } \} \infty \infty \infty & \text{relational as these} \\
 \text{unconditional/} \infty \text{ kinds of} & & \leftarrow \} \infty \infty \infty \dots\dots \text{so on} \\
 \text{conditional/} & & \\
 \text{opposites of conditional \&} & & \\
 \text{events} \left. \right] \infty \infty \infty & &
 \end{array}$$

tends to ∞] $\infty^{\infty} \infty^{\infty}$

And as calculating infinitism kinds of natures life for the and events it can be as:-

natures life $_{\infty}^{\infty} = \text{Quantities}_{\infty}^{\infty} \prod \text{Quantities}_{\infty}^{\infty} \Leftrightarrow \text{Quantities}_{\infty}^{\infty} = \text{Quantities}_{\infty}^{\infty} \mathbb{R} \text{Quantities}_{\infty}^{\infty}$

$\text{Quantities}_{\infty}^{\infty} = \text{Quantities}_{\infty}^{\infty} \mathbb{L} \text{natures life}_{\infty}^{\infty} \Leftrightarrow \text{Quantities}_{\infty}^{\infty} = \text{Quantities} \mathbb{Z} \text{Quantities}$

Thus,

$\text{Quantities}_{\infty}^{\infty} \propto \text{Quantities}_{\infty}^{\infty} \times \text{Quantities}_{\infty}^{\infty}$

Therefore,

$[(\text{Quantities}_{\infty}^{\infty} / \infty \text{Quantities}_{\infty}^{\infty}) \propto \text{Quantities}_{\infty}^{\infty}]_{\infty}^{\infty} \text{ also}$
